Date: 16/05/2023

To Whomsoever it may concern,

I am writing this letter to highly recommend Nithish Kadam K.G for the master's program in Computer Science. Nithish is working as a Software engineer [Manhattan Associates] aligned to my group since 15-SEP-2021. He has been one of the brightest resources working for my team, he always continued to deliver the best from the time he completed onboarding.

Quick learner, picked up exceptionally well in a very short time and started contributing, completing the complex tasks, eg Aramark 2020 Upgrade project, he finished a complex customer enhancement with very minimal training within 2 months of onboarding. There are a few more example projects. We can always count on him to deliver the right solution to the requirements on time.

I can confidently say that Nithish has a high level of teamwork and is an exceptional team player. He actively listens to others' opinions, works well with diverse groups, and stays committed and true to the delivery timelines provided, and he does not hesitate to go above and beyond to address any complex situations. He was awarded The **Above&Beyond** award and the **Star of the Quarter** award as a recognition of his performance.

In conclusion, I highly recommend Nithish for the master's program in Computer Science at your University. I have no doubt that he will excel in the program and make valuable contributions to your institution.
